3. Condition summary

Product condition	damaged
Accessories expected	USB-C charging cable, 3.5 mm audio cable, carry case, quick-start guide
Accessories complete	No
Defect verified	No
Inspection result	INCONCLUSIVE

4. Findings

Several records for this return do not agree. The order line for O107 records purchased serial HP7710; the unit received carries serial HP7799. The return reason recorded is wrong_product, but the item received is the same model as the order line (SoundPeak Wireless Headphones Pro).

Accessories are incomplete: the carry case and the 3.5 mm audio cable are missing. The unit has a cracked right ear-cup hinge and scuffing on the headband (condition: damaged).

No functional defect could be confirmed (defect verified: No). The account also has 2 earlier return(s) on record: R220 (reason: wrong_product, status: closed, with a serial mismatch on inspection); R359 (reason: not_functioning, status: closed). This is context for the analyst only; each return is assessed on its own evidence.

5. Recommended next step

Additional verification required: serial mismatch, missing accessories and a reason code that does not fit the item received. Investigation case 3 (general) is assigned to analyst_02 for manual review. No refund decision should be made until the case is resolved.

Result codes (SOP WH-INS-07): PASS = inspection protocol completed and claim-relevant findings are conclusive; FAIL = findings do not support the claim as stated; INCONCLUSIVE = findings cannot be confirmed without further verification. Product condition codes follow the warehouse grading scale (new, like_new, open_box, damaged, defective, unsafe, for_parts).
