4. Findings

The item was received in its retail packaging. The packaging had been opened and the contents show only light handling. Photographs of the item and packaging are attached to the inspection record.

No serial number is recorded for this order line; identity was confirmed from the product label, SKU and packaging.

All accessories listed for the product were present.

Assessment: the findings do not support the reason recorded on the return (defective); the reported fault could not be reproduced (defect verified: No).

5. Inspector system note (verbatim from inspection record)

"Bench test for 60 minutes could not reproduce the reported fault."

6. Recommended next step

The findings do not support the claim as stated. A returns analyst should review the customer's description and consider a second inspection before deciding under the accessories return policy. The request was raised 5 days after delivery, within the 30-day return window for accessories.

Result codes (SOP WH-INS-07): PASS = inspection protocol completed and claim-relevant findings are conclusive; FAIL = findings do not support the claim as stated; INCONCLUSIVE = findings cannot be confirmed without further verification. Product condition codes follow the warehouse grading scale (new, like_new, open_box, damaged, defective, unsafe, for_parts).
