4. Findings

The unit was handled with extra care on receipt and isolated from other stock as soon as the condition was identified. Photographs of the affected areas are attached to the inspection record.

The serial number on the unit (SN000269) matches the purchased serial on the order line (SN000269).

All accessories listed for the product were present.

Assessment: the reported problem was verified on the bench (defect verified: Yes). The findings support the reason recorded on the return (defective).

5. Inspector system note (verbatim from inspection record)

"Burn marks near the power inlet and a failed insulation test; unit isolated."

6. Recommended next step

UNSAFE - NO RESALE. The unit must be quarantined and must not be resold, refurbished for resale or returned to stock. Disposition is limited to recycle or dispose (RFB-SAF-2025-02). Notify the Product Safety Lead and the supplier the same day. The request was raised 10 days after delivery, within the 30-day return window for home_appliances.

Result codes (SOP WH-INS-07): PASS = inspection protocol completed and claim-relevant findings are conclusive; FAIL = findings do not support the claim as stated; INCONCLUSIVE = findings cannot be confirmed without further verification. Product condition codes follow the warehouse grading scale (new, like_new, open_box, damaged, defective, unsafe, for_parts).
