3. Recurring defect analysis

- Recurring pattern for this electronics supplier: power and charging faults, and housing cracks at the port openings.
- Verification rate: 16 of 19 inspected returns (84%).
- Returns without an inspection are listed for completeness and are excluded from defect counts.

4. Requested supplier actions

- Provide incoming-quality data for lots S028-LOT-25Q3, S028-LOT-25Q4.
- Submit a corrective action plan for the most frequent failure mode within 15 business days.
- Agree return-to-vendor terms for units with verified defects.

5. Commercial handling

Units with a verified defect are held for return-to-vendor (supplier_return) against the batch codes above. Units with conflicting or missing inspection evidence are excluded from any chargeback until the inspection evidence is complete.
