1. Warranty period

The warranty runs for 12 months from the delivery date recorded in the ShopSphere delivery system. During the category return window a fault is handled as a return; after the window it is handled as a warranty claim (repair, replacement, or refund at ShopSphere's discretion).

2. What is covered

- Failure of either driver, including one-sided audio or distortion at normal volume.
- Bluetooth pairing or connection failures not resolved by a factory reset.
- Battery that holds less than 70% of rated capacity within the warranty period.
- Charging port failure without physical damage.

3. What is not covered

- Physical damage, cracked headband or torn ear cushions from use.
- Liquid damage.
- Units whose serial label is missing or does not match the purchase record (additional verification required before any claim).

4. Identity and serial verification

Serial-tracked. The serial on the unit must match order_items.purchased_serial_number.

Claim procedure

- Customer raises a claim quoting order ID; support opens a return with reason defective or not_functioning.
- Warehouse inspection verifies the defect (defect_verified = Yes) before the claim is accepted.
- An investigation case of type warranty_review is opened when the claim falls outside the return window.
