Warranty Terms - TechNova Ultrabook 14

TechNova | category electronics

Warranty document	WTY-TN-UB14-2025-01
Version	1.0
Effective date	2025-01-01
Brand	TechNova
Category	electronics
Warranty period (months)	24
Catalogue product IDs	P_R108, P_R112
List price	INR 68,999.00

1. Warranty period

The warranty runs for 24 months from the delivery date recorded in the ShopSphere delivery system. During the category return window a fault is handled as a return; after the window it is handled as a warranty claim (repair, replacement, or refund at ShopSphere's discretion).

2. What is covered

- Mainboard, memory and storage failures.
- Display defects (dead pixels above the published threshold, backlight failure).
- Keyboard and trackpad failures not caused by impact or liquid.
- Battery below 80% of design capacity within 12 months; below 60% within 24 months.

3. What is not covered

- Accidental damage (impact, cracked keys, bent chassis) unless an accidental damage plan was purchased; such units may still be repaired at cost.
- Software issues and data loss. Customers must back up data before service.

4. Identity and serial verification

Serial-tracked. Service is booked against the serial on the order line.

Claim procedure

- Customer raises a claim quoting order ID; support opens a return with reason defective or not_functioning.
- Warehouse inspection verifies the defect (defect_verified = Yes) before the claim is accepted.
- An investigation case of type warranty_review is opened when the claim falls outside the return window.
